

# HUDSON PLACE TOWNHOMES

At The Township at Colony Park, developers have put a new twist on Live Work - Shop. The Hudson Place Townhomes offer urban living in a suburban environment, with amenities such as wood flooring, brick exterior, and private courtyards.

One new resident of Hudson Place has turned his two-story townhome into the ultimate bachelor pad. Warm colors create a soothing environment in this bedroom. Custom-made Cherry wood side tables accent the bed.

## MODERN, MASCULINE LIVING

The resident purchased the painting from St. Petersburg, Florida, when he lived there. It was imported from Japan and it by an unknown artist. An interior decorator selected the furniture from Batte Furniture in Northeast Jackson. The decorated drew her inspiration from the stacked stone in an attempt to keep the area inviting, yet masculine.
